

Unified Risk Management for the Enterprise of the Future

Introduction to Brinqa

Brinqa is a leading provider of unified risk management - enabling stakeholders, governance organizations, and infrastructure and security teams to effectively manage technology risk at the speed of business. Brinqa software and cloud services leverage an organization's existing investment in systems, security, and governance programs to identify, measure, manage and monitor risk. With Brinqa, organizations are reducing response time to emerging threats, impact to business, and technology risk and compliance costs by over 50% through real-time risk analytics, automated risk assessments, prioritized remediation, actionable insights and improved communication.

Founded in 2008 by industry leaders in risk management with a proven track record in delivering cutting edge, innovative and cost-effective solutions. Brinqa's award winning software and cloud services are trusted by fortune 500 companies across risk disciplines such as information technology risk, vendor risk, and regulatory compliance risk. Brinqa is headquartered in Austin, Texas and has a global presence.

Solutions — What We Do

Since releasing its initial product in 2009, Brinqa has expanded its portfolio from a single product to a suite of software applications and cloud services that span across all risk disciplines. Today Brinqa solutions are helping organizations discover, manage and mitigate risk more efficiently and cost-effectively, while also meeting the compliance and audit requirements.

Technology Risk Management

Collect, analyze, visualize and discover IT risk through contextualization of risk data and a normalized measurement for improved communication. Information Technology risk includes risk associated with key business applications, IT

Vendor Risk Management

Identify, assess, monitor and manage IT risk exposure from relationships with third-party vendors. Standardize your vendor classification process, automate risk and control assessments while gaining the ability to work closely with business partners and optimizing time and flexibility to focus on critical risk mitigation.

Compliance Risk Management

Understand and reduce the risk of non-compliance by adopting a risk-based approach to compliance management. Meet your HIPAA, HITECH, PCI, FISMA or NERC compliance obligations with automated assessments, what-if analysis, prioritized issue and action tracking, and comprehensive compliance reporting.
